Notes:

- 'guaranteed delivery' is given as a commitment from our courier, but does not imply any guarantee to protect customers from consequences arising from non-delivery of CozyMole orders and no guarantee is offered to compensate customers' costs arising from any such non-delivery. We will, however, always do our very best to get orders to you especially in cases where premium delivery has been paid for.
- We cannot cover all possible combinations of orders and destinations. In some cases we may have to advise that we cannot ship your order to your address for the amount stated in the automatic checkout. This is very rare, but we reserve the right to refuse orders on this basis.
- If your country is not listed, or you have special delivery requirements, please contact us by phone or email and we will advise on possible shipment methods and prices.
- Some delivery methods have minimum and/or maximum order values and/or weights.
